Ella Rock

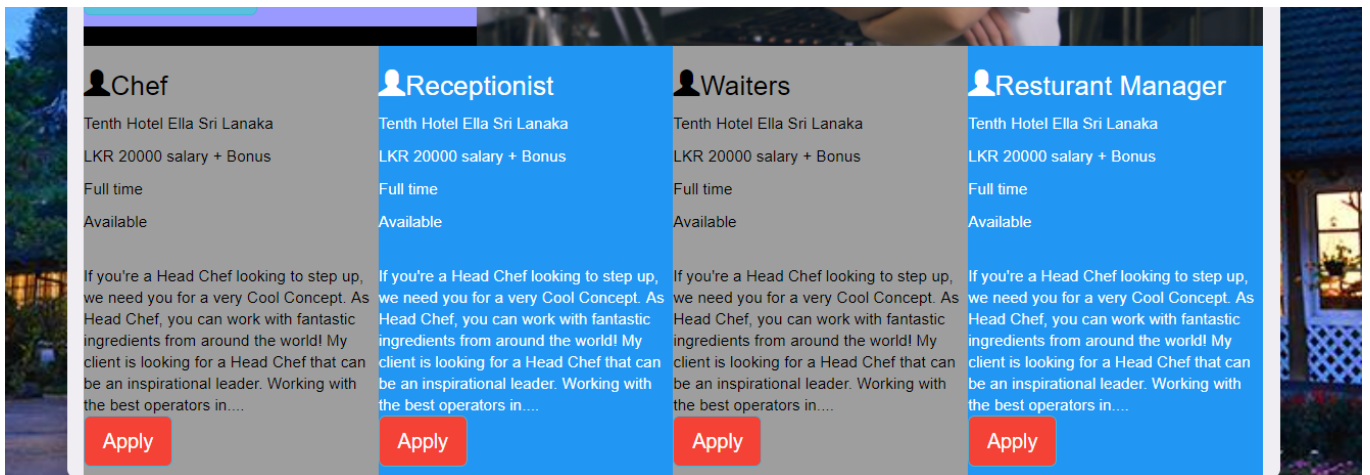

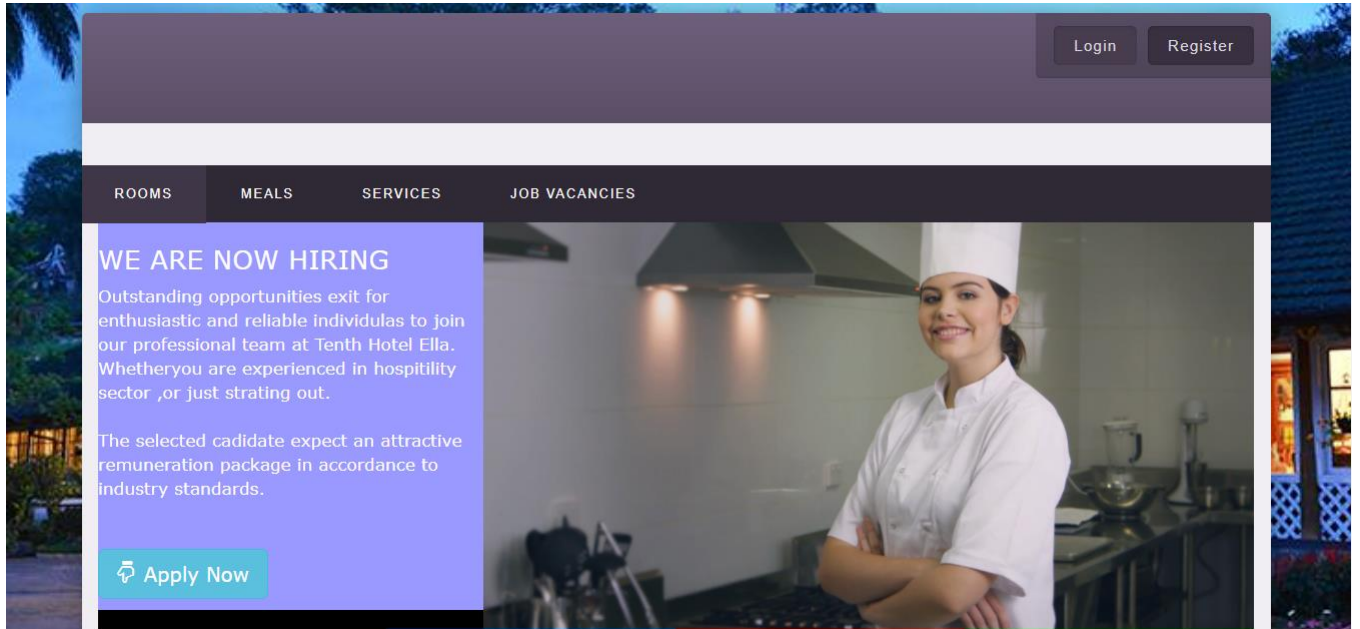

Ella Rock is a famous cliff, located high above Ella's village, roughly a two hours strenuous trek from the centre of town. The rock offers stunning views across the hill country, and the plains below. The trek to Ella Rock is about 8 km long and is quite easy if you follow the track. Trekking to Ella Rock and back took us around 4 hours from start to finish. We passed through the surrounding countryside, tea plantations, railway lines and then up the hills until we reached the Ella Rock peak.

Some tips:

1. From Ella town take the road up to the railway lines (anyone local can point out which road this is) and walk south along the railway lines for a few kilometres.
2. The aim is to keep on walking southwards, passing over a bridge and past Kithaella train station
3. Before Kithaella train station there is a left turning with some small Buddhist statues where you can turn off to cross the river and go to Ella Rock. This route will make it 15 minutes quicker but is really complicated. So just ignore it and keep walking towards Kithaella station.
4. Once you pass Kithaella train station, there is another left turning with a bench: ignore this one
